

Progress Pulse™

The new cloud-based classroom response tool in Renaissance Place.

No clickers. No proprietary hardware. No cost. Progress Pulse is an easy-to-use tool on Renaissance Place. With Progress Pulse, teachers can engage students and receive instant, anonymous feedback using any web-enabled devices.

An easy solution for today's digital classrooms.

Students love using digital devices. With Progress Pulse, students are engaged, focused, and motivated to learn. And teachers get instant insight into student understanding without the hassles or expense of new hardware, set up, or IT support. It's all hosted on Renaissance Place and works on any web-enabled devices—perfect for the BYOD or 1:1 classroom.

Five question types to gauge student understanding with instant feedback.

Teachers can ask five types of questions in Progress Pulse: short answer, numeric, multiple choice, opinion, or true false. Questions can be easily aligned to Common Core and state standards. An easy-to-read dashboard instantly captures students' anonymous responses, enabling teachers to adjust instruction on the fly to keep kids on track.

Free for Renaissance Place teachers.

Once activated, all teachers in your school can use the full-featured Beta version of Progress Pulse during the 2015-2016 school year. Easy-to-follow instructions are included on Renaissance Place. We welcome your suggestions for improvements to Progress Pulse.

- Available only on Renaissance Place
- No extra hardware to purchase
- No additional websites to access, nothing to download
- A must-have in the 1:1 or BYOD classroom for all content areas
